KODAMANCHILI SRI SATYA LOKESH

satyalokesh.ks@gmail.com | +91 9704125649 | LinkedIn | GitHub

Career Objective

B.Tech Artificial Intelligence and Machine Learning student with hands-on experience in Python, Java, SQL, data analysis, and automation. Skilled in applying technical and problem-solving skills to build practical solutions using AI/ML, cloud, and data technologies. Seeking an entry-level engineering role to contribute to real-world projects while developing strong technical expertise.

Technical Skills

Programming: Python, Java, C, SQL

Data & Analytics: Excel, Power BI, Pandas, NumPy, Scikit-learn

AI / Generative AI: Machine Learning, Generative AI (IBM Granite), Hugging Face, Gradio

Cloud & Platforms: AWS, Google Cloud, Snowflake

Automation & Microsoft: Power Automate, Microsoft Forms, SharePoint

Tools: Git, Git Bash, VS Code, Jupyter Notebook, Postman

Experience

Data Specialist Intern – Technical Hub Pvt. Ltd. *Certificate* May 2025 – Jun 2025

- Performed real-time data cleaning, transformation, and reporting to improve data accuracy and support data-driven decision-making.
- Built data analysis and visualization workflows using Excel, Power BI, and SQL.
- Automated data-handling and reporting workflows to streamline data processes and improve reporting efficiency.

Generative AI Intern (IBM Cloud) – Smart Internz / Smart Bridge. *Certificate* May 2025 – Jul 2025

- Gained hands-on experience with Generative AI and IBM Cloud by working on practical AI-based tasks and applications.
- Applied Generative AI concepts to practical, project-based tasks.

Projects

Student 360 – Academic Intelligence Platform. GitHub

- Built a web-based platform using React, Vite, Firebase, and Firestore to manage student profiles, academic records, exams, results, achievements, and performance.
- Integrated the GitHub API to track coding activity, programming languages, and contributions through dashboards and leaderboards.

Citizen AI – Intelligent Citizen Engagement Platform. GitHub

- Built an AI chat application using the IBM Granite model via Hugging Face, with a Gradio interface
- Optimized inference for Google Colab GPU runtime using CUDA and float16 precision

Certifications

- **Microsoft Certified: Power Platform Solution Architect Expert** — Microsoft
- **Microsoft Certified: Power Platform Developer Associate** — Microsoft
- **AWS Certified AI Practitioner** — Amazon Web Services
- **SnowPro Associate: Platform** — Snowflake
- **Java Foundations Associate** — Oracle
- **Google Cloud Career Launchpad – Data Analytics** — Google Cloud
- **HTML & CSS** — Certiport

Achievements

- Earned **3-star badges on** HackerRank in Problem Solving, C, SQL, Java, and Python.
- Completed **HackerRank SQL certifications at Basic and Intermediate levels**.
- Achieved **1-star rating on** CodeChef and solved **200+ competitive programming questions**.

Education

B.Tech – CSE (Artificial Intelligence & Machine Learning) Sep 2023 – Jun 2027
Aditya College of Engineering & Technology, Surampalem **CGPA: 7.98/10**

Intermediate (MPC) Jun 2021 – Apr 2023
Sri Chaitanya Junior College, Rajahmundry **74.7 %**
